The area may not extend out from the building more than 7 feet on the Primary Commons and as marked by the City on the Secondary Commons. **Any signage must be contained within the approved outdoor dining area.**
 - 2) If alcohol is served, the dining area shall be contiguous to the establishment and physically defined (i.e. stanchions, barriers, etc.). Establishments serving alcohol require approval from Common Council. (Contact Jennifer Kuszniir - jkuszniir@cityofithaca.org, for the deadline to submit requests for the next Common Council meeting.)
 - 3) Furniture and fixtures, as well as any means used to define the dining area, will be allowed only during approved outdoor dining hours and must be located within the defined outdoor dining space.
 - 4) The merchant shall be completely responsible for all aspects of the area including cleanliness, ensuring all furniture and fixtures are within the defined dining space, and stain removal, using the maintenance guidelines (Attachment B herein) established by the Department of Public Works.
 - 5) The City cleans/sweeps all sidewalks downtown beginning at 7:00 a.m. daily. If tables and chairs are placed outside prior to that work being completed, it will be the responsibility of the business to clean, sweep and/or remove snow from their sidewalk and outdoor dining area.
 - 6) The Annual Outdoor Dining Permit shall run from April 1 through March 31; Seasonal permits run from April 1 through October 31st.
 - 7) Applications must be submitted to the Office of the Superintendent of Public Works and approved annually. No extension of an Outdoor Dining Permit will be permitted without expressed written permission from the City.
